### **Ride Glenwood Springs Debuted New CNG Bus at June 25 Ribbon Cutting**

GLENWOOD SPRINGS, CO – The City of Glenwood Springs held a ribbon cutting to welcome the new 29-foot Gillig transit bus to the Ride Glenwood Springs fleet on Tuesday, June 25. The bus is ADA compliant and equipped with a Cummins L9N ultra low emission engine, powered by Compressed Natural Gas (CNG).

The L9N is certified to the California Air Resources Board (ARB) and Environmental Protection Agency (EPA) Optional Low NOx emissions standard of 0.02 g/bhp-hr — 90% lower than current emissions standards.

The new bus is possible thanks to the Colorado Department of Transportation, who awarded the City \$458,384 in FASTER Grant funding in 2017 to assist with the purchase of the bus.

Ride Glenwood Springs (RGS) is the City's year-round public transit bus service.
